

EXECUTIVE SUMMARY

A **front-end developer** with +4 years of experience in enterprise and start-up environments. Passionate about creating web applications using modern technology with a strong focus on delivering high-quality, clean, scalable, and maintainable code.

FUNCTIONAL EXPERTISE

- React js
- Angular
- TypeScript
- HTML/CSS
- WordPress Development
- Testing

FUNCTIONAL EXPERTISE DEMONSTRATED

YES DOCTOR

November 2020 - August 2023

Patient financing platform operating across two physical locations, with 20 employees, partnering with RealSelf, and integrating with Affirm, Lending USA, and Symplast.

Front-end developer

Developed the website's user interface and functionality, and also created management panels for doctors and administrators.

- **React js:** Developed an admin panel using [React-admin](#) to manage doctors' profiles, patients' information, available offers, and payments. Also enabled marketing and content teams to easily add and update content about listed concerns and procedures on the website.
- **Angular:** Collaborated with the design and back-end teams to develop a responsive, fast, and maintainable website.
- **Testing:** Implemented E2E tests for patient flows using [Puppeteer](#) within a GUI based on [Majestic](#), achieving 56% coverage by writing and maintenance of a suite of 680 unit tests.

DOCTORETO

July 2020 - November 2020

A leading platform in online doctor appointments in Iran, with 60+ employees and over 27,000 successful reservations.

Front-end developer (Remote)

Contributed to the development of new features and components using React and WordPress.

- **React:** Participated in the development of a telemedicine feature that facilitated patient-doctor connections via VoIP. Additionally, contributed to creating new components,

such as pagination and checkbox filters, in the main UI library, utilizing the [Gitlab package registry](#).

- **WordPress Development:** Improved the existing WordPress blog by adding new features like a custom newsletter and banner marker plugin. These enhancements led to higher engagement and better conversion rates.

PARVAZ GROUP

July 2019 - July 2020

A web development agency with 30 employees, dedicated to partnering with over 100 clients.

Front-end developer

Involved in multiple projects for the development of Angular and WordPress websites.

- **Angular:** Expanded functionality by integrating APIs like [Charter724](#) , boosting Charter.ir flight listings by 1.5x.
- **WordPress Development:** Developed custom WordPress themes and plugins for the following projects: [iGame.ir](#) and [Nortix.com](#).

EDUCATION

Bachelor in Engineering (Computer Engineering). [Azad University of Marvdasht](#) (Shiraz, Iran)
